Subject: City of Dripping Springs' Response to USFWS Letter to EPA and EPA questions to TCEQ
Attachments: RespEmailSigned.pdf; RespSigned.pdf

Mr. Valentine, I represent the City of Dripping Springs regarding TPDES Permit No. WQ0014488003. The public record reflects that EPA received correspondence regarding this permit from USFWS dated Dec. 22, 2016. In addition, it appears that EPA sent an additional 9 questions to TCEQ based on the USFWS letter.

I have attached two letters addressed to Mr. Bill Honker at Region 6. One letter responds to the USFWS letter they provided to you. The second letter responds to your 9 questions to TCEQ.

This permit is of utmost importance to the City of Dripping Springs. As such, it is important for us to resolve these issues. We will be calling in the next day or two to arrange a meeting in Dallas with you and others at Region 6.

I have also included James Miertschin and Robby Callegari on this message. Both are technical consultants to the City of Dripping Springs and can provide more information to you. Please feel free to reach out to them.

Of course, you are always welcome to contact me but my technical knowledge pales in comparison to yours and Dr. Miertschin's and Mr. Callegari's.

--
